SEEING IS
BELIEVING

Your Favourite Canvas Just Got Bigger

Clarity Max offers the same bright, vivid and true-to-life colours as our widely-lauded 27" original – but with a new 32" screen that makes a much bigger impression. Max's USB hub helps declutter your studio, leaving your focus for what truly matters: your next masterpiece.

4K UHD Display

Make an impact in 32"

With HDR400 support and a 3000:1 contrast ratio, Clarity Max delivers crisp contrasts between its deep blacks and eye-catching brightness. Offering more than 16 million colours across their 4K Ultra High Resolution displays, Clarity Max monitors are the perfect place to realise your next masterpiece.

More space for what matters

The big plays look bigger. Movies hit harder. Games draw you in deeper. Great art stretches out before you. Whatever you're into, it just looks better in 32" on Clarity Max.

Power, Data & Video in a Single Cable

Clarity Max's rear USB hub connects your computer to two USB-A accessories, 65W laptop charging and your 3.5mm audio – all with the same USB-C cable you're using for video.

Raise, Lower, Tilt and Twist

Adjustable stand

Our aluminium stand makes it easy to position Clarity Max exactly where you need it, letting you raise, pivot, tilt and swivel the display to fit your desk setup and maximise ergonomic comfort.

With Clarity Max, it's easy to show off your latest design to colleagues, with wide 178° viewing angles across its broad 32" screen.

Compatible with 100x100mm VESA Mounts (such as our Clarity Fold Stand and Glide Monitor Arms), Clarity Max is an easy inclusion in any setup, despite its size.

8 Port Mini Hub

- 1 USB-A
- 2 USB-B
- 3 HDMI
