PRODUCT NAME:	SurgePlus 2.4 Amp USB Charging 8-outlet Surge Protector with 2M Cord
ONLINE PRODUCT NAME:	SurgePlus 2.4 Amp USB Charging 8-outlet Surge Protector with 2M Cord
HEADLINE + OVERVIEW:	**EIGHT-OUTLET PROTECTION WITH TWO USB PORTS** Keep your electronic devices protected from dangerous power surges and spikes with the Belkin 8-Outlet Surge Protector with 2M Cord and 2 USB Ports. Simply plug the surge protection strip into any AC wall outlet and connect up to eight AC and two USB devices to keep them safe from power surges, lightning strikes, and AC contamination. Ideal for televisions, stereo systems, cable boxes, and other home theatre equipment, the Belkin Surge Protection Strip is made with high-quality construction and enhanced circuitry to offer premium power protection for your high-end devices and data.
FEATURES + BENEFITS:	**PROTECTS AGAINST SPIKES AND FLUCTUATIONS** Connecting your electronic devices to the Belkin Surge Protection Strip protects them from unexpected power surges, such as short circuits and lightning strikes. The surge protection strip also keeps your devices safe from sudden voltage fluctuations or low-level spikes and drops that can damage or even destroy electronics over time. **TWO 2.4 AMP USB PORTS FOR CHARGING** Charge your portable devices quickly while protecting them from damage and data loss thanks to two integrated USB ports. Ideal for smartphones, tablets, these USB ports charge at 2.4 amps, offering faster charging times than traditional USB ports, with added protection.

	SURGE PROTECTION UP TO 900 JOULES This surge protection strip is rated to handle up to 900 joules and is designed to shield home theatre and office electronics against harmful voltage fluctuations, surges, and energy spikes. Oversize metal oxide varistors (MOVs) absorb excess electricity and release it as heat. Fiberglass MOV covers also help contain or smother fire if a large surge causes the MOVs to ignite. **PROTECTED OUTLETS WITH RECESSED POWER SWITCH** The Belkin Surge Protection Strip features high-quality construction and a durable design with damage-resistant housing that protects circuits from fire, impact, and rust. Eight protected AC outlets make this strip an ideal solution for home offices, entertainment centres, and other areas where multiple devices need to be connected. A large, recessed power switch helps ensure you never accidentally power off your connected devices and makes reboots easy, while sliding safety covers help protect children from harm. The Belkin Surge Protection Strip also includes a Not-Grounded Indicator that warns you when your outlet is not properly grounded. **HEAVY-DUTY 2-METRE POWER CORD** Protect your connected devices while keeping the Belkin Surge Protection Strip out of the way thanks to a 2-metre power cord. A heavy-duty design helps protect the cord from damage and ensures optimal power flow to your devices. **COMPLETE THREE-LINE AC PROTECTION** The Belkin Surge Protection Strip keeps connected devices safe with three-line AC protection. This type

	of protection guards against surges that occur between hot, neutral, and ground lines. **$50,000 CONNECTED EQUIPMENT WARRANTY** This surge protection strip comes with a Connected Equipment Warranty, which means we will repair or replace electronic equipment damaged by an electrical surge or lightning strike while properly connected to the strip, up to $50,000. **At a Glance:** • Protects home theatre electronics from dangerous power surges and spikes • Ideal for televisions, stereo systems, cable boxes, and other home theatre equipment • Eight protected AC outlets and two 2.4 amp USB ports • Heavy-duty 2-metre power cord keeps surge protection strip out of the way • Damage-resistant housing protects circuits from fire, impact, and rust • Rated to withstand a power surge of up to 900 joules • Three-line AC protection against surges between hot, neutral, and ground lines • Warranty repairs or replaces damaged connected equipment up to $50,000
PACKAGE INCLUDES:	SurgePlus 2.4 Amp USB Charging 8-outlet Surge Protection Strip
WARRANTY:	Protected by 2-year product warranty, $50,000 Connected Equipment Warranty
