Connect
8-Outlet Surge Protector with Dual USB-C® 30W

Protect the life of your electronics and appliances with 900 joules of surge protection from eight AC outlets and two fast charging USB-C PD ports. This product is rigorously tested for quality and features a Belkin 11-point safety system and $70,000 Connected Equipment Warranty* for added peace of mind.

Product Benefits

- 900 joules of surge protection to protect the life of your electronics and appliances
- Dual USB-C PD ports for added convenience
- 30W of Power Delivery for fast charging compatible devices
- Programmable Power Supply (PPS) allows optimised charging with compatible devices by dynamically negotiating the best charging voltage
- Durable 2m power cord
- Protected with Belkin 11-point safety system (details below)
- RCM Safety Certified — independently lab tested and certified to meet or exceed safety standards
- Hardworking metal oxide varistors (MOVs) absorb damaging excess energy and release it as heat to protect your connected device
- Indicator light shows when protection is active or when it's time to change your surge protector
- Built-in, wall-mounting holes to hang, mount or attach your surge protector where you need it
- $70,000 CEW* for connected devices
- 2-year warranty
- Plastic-free packaging

Technical Specifications

314.5mm x 106.3mm x 40.3mm
745g

Rated Input:
230V~240V~
Rated Current:
Max 10A
Rated Power:
Max 2,400W
USB-C Ports:
5.0V ⎓ 3.0A 15.0W,
9.0V ⎓ 3.0A,
12.0V ⎓ 2.5A,
15.0V ⎓ 2.0A,
20.0V ⎓ 1.5A
30.0W max
USB-C 1 + USB-C 2:
5.0V⎓3.0A 15.0W max

Compatibility

Compatible with AC and USB-C plugs

Package Includes

- 8-Outlet Surge Protector with Dual USB-C 30W

The Belkin Connect Family

Connect surge protectors protect your connected devices from damage resulting from voltage fluctuations and surges in electricity, such as lightning strikes and power failures. Surge protectors can prevent costly repairs and loss of valuable data in the event of a surge and prolong device life expectancy by blocking smaller fluctuations over time. A Connected Equipment Warranty protecting connected devices provides added peace of mind.

The Belkin Connect Family Characteristics

- Three-line AC protection (hot, neutral, ground)
- Multiple protected ports
- Durable power cables

The Belkin Difference

- Pioneer in innovation and technology for 40 years

Belkin 11-point safety system

- Over-temperature protection
- Over-current protection
- Overload protection
- Overvoltage protection
- Short-circuit protection
- Clamping voltage protection
- Three-line AC protection (hot, neutral, ground)
- Glow-Wire tested at 850°C
- Surge-protection indicator
- Not-grounded indicator
- Recessed power switch

SKU#:SRB004au2m

*Belkin will repair or replace electronic devices damaged by an electrical charge while properly connected to this charger, up to $70,000AU. Visit belkin.com/cew for details.

Important: Be sure to regularly check the light on your surge protector. If the light is not on, the surge protector may have absorbed excess voltage from an event such as a thunderstorm or power outage. It may no longer be protecting equipment that is connected to it, and you should immediately replace it with a new surge protector. If you use the surge protector when the light is not on, your warranty will be invalidated. In any case, we recommend replacing a surge protector after three years of use, even if the light continues to come on.
